

March 25, 2019

Dear Customers,

Thomson-Shore has been facing significant financial challenges for many months. This, combined with our current banking arrangement has proven to be too much for the company to remain viable. After a careful review and assessment of all options, including an exhaustive marketing effort, Thomson-Shore is announcing the sale of the company's current operations to the CJK Group.

This agreement is subject to Thomson-Shore successfully exiting the bankruptcy process, which is expected to close as soon as May 6, 2019 at which time we will become a member of the CJK Group's impressive portfolio of printing and publishing operations throughout the United States. Companies included in the CJK Group are Bang Printing in Brainerd, MN, Hess Print Solutions in Brimfield, OH, Sentinel Printing Company in St. Cloud, MN, Sinclair Printing Company in Los Angeles and Palmdale, CA, Webcrafters in Madison, WI, and Sheridan in Hanover, PA, Chelsea and Grand Rapids, MI, Hanover, NH, Waterbury, VT, and Boston, MA.

The sale is pending approval of all legal and regulatory filings within the Chapter 11 bankruptcy process. Thomson-Shore has secured the necessary financing from CJK Group to maintain manufacturing operations during the bankruptcy proceedings which allows the company to continue to support customers with our valued services.

Thank you for the trust and confidence you place in us with every job you award us. We come to work every day for you and we look forward to continuing to provide the same high level of service and quality.

Sincerest gratitude,

Peter Shima  
President
